Publisher's announcement.—In accordance with the requirements of the American Newspaper Directory it was necessary to make a statement of the average circulation of the GLOBE for one year from February 1, 1904. The average for this period, 103,516 does not do the GLOBE full justice, because it was on Feb. 1, 1904, that the COMMERCIAL ADVERTISER was re-named the GLOBE. The average for the early months of the period were, of course, very much lower than towards its close, the actual average net paid circulation for the five months preceding February 1, 1905, being 127,516. It should be noted that the GLOBE has given no return privilege to dealers during the past year, and the statement of circulation is for copies actually *sold* and not copies *printed*, as permitted by the Directory.

The actual monthly daily averages for the year were.

The high standing of the paper and the exceptional quality of its circulation have been recognized by the editor of this Directory by the award of the "Gold Marks"—a distinction which no other military paper has attained. This estimate confirms the opinion of a large class of advertisers who have used the JOURNAL'S columns for years, finding that they can reach the entire Army, Navy, Revenue Cutter Service and National Guard field most effectively and economically in this way. No advertiser can fully cover this important field *without* using the ARMY AND NAVY JOURNAL.

An Age of Specialization!

THEN, WHY NOT

An Agency of Specialists?

THE Derrick Agency is the only International Agency, and the only Agency of Specialists.

It does not try to put a belt around the globe—from its New York office. It does not believe that the greatest mind on earth could grapple with all phases of the Publicity Problem, and master them. Or that any one man can handle half a dozen lines and do justice to any one of them.

Is your product corsets? Rest assured they won't have a chance to be mangled by our Mechanical Specialist. Or Baking Powder treated by our Textile Specialist. Or Patent Medicine handled by a hard-headed fellow, who can't imagine what a pain feels like.

The Derrick Agency is composed entirely of Specialists—men and women. We accept no business we are not in a position to do absolute justice to. If we haven't the man, we get him—or say "no" to the account.

Paul E. Derrick is in command of the foreign forces. M. Lee Starke over those in America.

Publisher's announcement.—The ELECTRICAL REVIEW is the oldest electrical weekly in America. Its advertisers reach the electrical, mechanical and engineering interests, electric light stations, telephone exchanges, steam and street railways, and all those engaged in the scientific and industrial applications of electricity. Advertisers receive the best typographical care and may have the benefit of this journal's art and engraving departments. The ELECTRICAL REVIEW is an independent, electrical weekly of general circulation, not associated with any technical journal combination. Its editorial and news departments and list of special contributors are not excelled, if equalled, by any technical journal. As the result of an elaborate personal call campaign, begun four years ago, and still continuing, the ELECTRICAL REVIEW has steadily grown in number of readers of the best class, and it has the *largest circulation of any electrical weekly.* This may be verified by reference to copies of this Directory for 1903 and 1904.

☞ **The absolute correctness of the latest circulation rating accorded Printers' Ink is guaranteed by the publishers of Rowell's American Newspaper Directory, who will pay one hundred dollars to the first person who successfully controverts its accuracy.**

Publisher's announcement.—PRINTERS' INK is devoted exclusively to the interests of advertisers and is the representative journal of its class. It aims to teach good advertising methods—how to prepare good copy and the value of different mediums, by conducting wide open discussions on any topic interesting to advertisers. Every subject is treated from the advertiser's standpoint. Subscription price, $2 a year. Advertising rates: Classified, 20 cents a line each time; display, 20 cents a line; ¼ page, $10; half-page, $20; whole page, $40 each time. In specified position, if granted, DOUBLE THE ABOVE PRICES are charged. The rates are flat. No discount for increase of space or frequency of insertion. A discount of five per cent is granted when check comes in full payment with order and copy. A discount of ten per cent is granted when a yearly advertising contract is accompanied by check in full settlement for the contract. One of the most interesting features of the Little Schoolmaster, as PRINTERS' INK is called by its friends, is a **Roll of Honor**—a department established in the early part of 1903. The essential features of a **Roll of Honor** are: (1) Being based on the ratings of the American Newspaper Directory, the high character of which is conceded by advertisers and publishers. This department is *veritably* a **Roll of Honor,** based upon truth and fact. (2) By reason of its standing and circulation among all classes of advertisers everywhere, PRINTERS' INK is the *one* journal that can give such a department the integrity which makes it valuable to advertisers and the publicity which will produce results for publishers appearing therein. (3) A rating in the **Roll of Honor** practically fixes the circulation of a paper beyond dispute. The establishment of such a method, capable of being kept all the time up-to-date, marks an era almost as important in scientific advertising as was the establishment, in 1869, of Rowell's American Newspaper Directory. (4) The **Roll of Honor** is the only organized weekly service in existence anywhere through which the honest and progressive publisher, entitled to membership, can bring before the advertisers of the United States his increase of circulation for a week, a month or a quarter just past. It is a satisfactory guarantee of the publisher's truthfulness and good faith. In reports of this kind every prominent advertiser is vitally interested. The **Roll of Honor** is a unique and choice service for choice mediums. It's the only authoritative source of such information to be had at any price, and the expense of it is merely nominal. **Two lines for 52 insertions cost $20.80, and this sum may be cut down to $18.72 for a whole year if check is sent with the yearly order.** An additional line is generally necessary to make the **Roll of Honor** copy as complete as it should be and bring the information up-to-date and keep it there by weekly changes to keep pace with the facts. The cost for the additional line is twenty cents per week. **The ROLL OF HONOR is now considered by advertisers the most practical step in scientific advertising. There is no waste in ROLL OF HONOR advertising, and no amount of money can buy a place in the ROLL OF HONOR for a paper not having the requisite qualifications to appear therein.** Address all correspondence to the Manager, The Printers' Ink Publishing Co., 10 Spruce street (up stairs), New York

FOR THE GENERAL ADVERTISER.

A Double Ad-Service with No Additional Cost.

All our time and energy is devoted to the evolution of plans for our clients and to the preparation of drawings and copy. We do not "place" ads direct in any publication. We conduct complete campaigns but delegate the "placing" to our friends in the placing business—a number of leading agencies co-operate with us in this way.

The advertiser who employs our services gets the best work of the best art and copy departments that we have been able to gather together. He gets our personal attention; our advice and assistance all along the way—our time is not taken up by the innumerable petty details incident to the placing of advertising. In addition to this he gets the services of another agency —the one through which the placing is done.

This combined service of two strong, able organizations costs the advertiser not a cent more than he would pay for the service of one agency.

We would like to explain this matter in full to interested advertisers, also to furnish convincing object lessons exemplifying our ability to produce the highest grade of commercial art work in all its branches, as well as copy of equal merit.

Filling the Gap

Between the work of the Advertising Agent and the work of the Advertiser's selling force is a gap hitherto unfilled.

Publicity has been bought, delivered and paid for, and only partially used.

The trouble has been that the Advertising Agent has valued newspaper and magazine space too highly, and the salesmen have not valued it highly enough.

Failure to *emphasize* the publicity paid for, seems like buying a steam engine and throwing it into the scrap heap. Properly used, publicity is a powerful trade lever for the salesmen and they can be made to realize it. But advertising, and practical "backing-up" that should go with it, can best be planned and directed by the advertising agent who is also a successful business man—who knows by having won success in the actual making and marketing of goods.

No general selling campaign is complete without four elements:

1. Publicity.
2. Direct Mail Drumming.
3. Successful marketing experience by the agent.
4. Salesmen.

Business-like, economical selling is a big problem, but we have for it a definite and positive solution.

We will tell you all about it without cost—if you say so.

McCLURE'S—

"The Marketplace of the World"

HOW many of the readers of McClure's have considered what really stamps it as a first-class magazine? Doubtless, you believe that its quality is fully shown in the editorial policy, in its articles, stories, poems, and pictures.

This is only part of the truth.

The advertising pages also form an index of character and illustrate the standing of a magazine. The advertising department of McClure's has the same sense of responsibility to the public as the editorial department.

The two are imbued with the same spirit. McClure's constantly refuses advertisements which do not conform to the tone of the magazine.

McClure's does not accept advertisements of intoxicating liquors, of get-rich-quick schemes, of gold, silver, rubber or oil stocks, of patent medicines, or anything of a medical character or of an objectionable appearance.

You do not see in McClure's any of those advertisements which are intended to make people think that they will get something for nothing.

It is not claimed that McClure's has succeeded in bringing about a millennium in the field of advertising, but it certainly deals only with such advertisers as are believed to be upright in fairly presenting the material advertised and in giving the purchaser the worth of his money.

The readers of McClure's therefore know that they can depend upon its advertisements; they constitute an army of shrewd and ready buyers, and McClure's brings to them offerings of the greatest manufacturers and merchants of everything desirable for life and happiness.

Hence, McClure's has been truly called "The Marketplace of the World."

GET THE HABIT.

PAY as you go and you will never make bad friends. Creditors have better memories than debtors, as waiting for money does not sweeten any man's temper. Many printers are led into debt (oftentimes from which they never free themselves) on the promise that if they order a fair-sized quantity of ink or paper, or any of the commodities needed in the business, they will not be bothered for the money. The supply house may be ever so lenient, but the bill will be paid long before the goods are consumed. My cash-in-advance system may seem arbitrary, but the small printer who **gets the habit,** will never lose his head and buy goods for which he has no need. Send for my price list and compare it with what you have been charged for inks on credit. Try me on a small order, and if you are not satisfied with your purchase the money will be refunded along with the cost of transportation.

Publisher's announcement.—CHAT is the pioneer free distribution paper. Its 30,000 circulation reaches that number of prosperous families, a large proportion of whom own their own homes. It is used by the majority of the large Broadway merchants, to the exclusion of all other Brooklyn papers. It is a *newspaper* in every sense of the word. Those introducing specialties have only to place their goods in a few stores, for all who read their ad in CHAT are within easy distance of the dealers. Rates and sample copies on application. Established 1900.

"Sales from our ads in the WEEKLY CHAT far exceeded our expectations. In proportion to the cost and territory covered, it is one of the very best advertising mediums we have ever used, and we compliment you on its success."—*Columbia Phonograph Co. Gen'l—New York*

A Roll of Honor

The Roll of Honor is a classified department in PRINTERS' INK. It is considered by advertisers the most important and most practical step in scientific advertising for the ONE reason that it is based upon the system of measuring circulation which has been practiced by Rowell's American Newspaper Directory for thirty-seven consecutive years.

No amount of money can buy a place in the Roll of Honor for a paper not having the required qualification.

THE

Cincinnati Enquirer.

SUPREME IN ITS FIELD.

The vastness of the news service of The Enquirer puts it easily in first place. Its columns contain all the news —local, telegraphic and cable—that can be obtained only by its unequalled news-gathering facilities.

The Enquirer, Daily and Sunday, is sold for five cents a copy. It is one of the few newspapers in the country that has maintained the price and increased its circulation at the same time.

"The higher the price at which a publication is sold, the more that publication is worth per thousand to the advertiser. The higher the price, the more closely will the actual sale approximate the number issued."—*Printers' Ink.*

AS AN ADVERTISING MEDIUM

The Enquirer is not excelled. It covers its local territory thoroughly by carrier system and newsboys on the streets, and outside employs the best mail facilities.

It is one of the most influential and widely read newspapers in the world.

It is one of the very limited number of newspapers accorded a rating of the double "Bull's Eye," or "pure gold" mark in the American Newspaper Directory.

It carries more want ads than any paper in the Central States.

Publisher's announcement.—The BILLBOARD made wonderful gains in circulation during the year 1904. While its average for the entire year was only 13,647, the average for the third quarter of the year was 15,171 and for the last three months of the year 17,078. On several occasions it printed over 20,000. There is every indication that during 1905 it will touch and perhaps exceed 30,000. It reaches theatrical and circus people, not only in America, but throughout the entire English speaking world. It is the only paper devoting a department to fairs, expositions, street fairs, carnivals, etc., and reaching the vast army of concessionaries and privilege people of America. Fair followers in all lines read it regularly, as do street-men, sidewalk salesmen and itinerent agents and merchants in all lines. It reaches all parks, pleasure resorts and summer gardens and all people identified therewith in any capacity. The BILLBOARD covers the entire world of the professional entertainer from Lyceum and Chautauqua to Theatre and Grand Opera, from Mountebank to Lecturer, from Acrobat to Impressario. Chicago Office, Suite 410, 172 Washington St.; Phone, Main 1589. New York Office, Suite 8, 1440 Broadway; Phone, 2466 38th St. Issued Tuesday, dated Satur-

Publisher's announcement.—The TIMES RECORDER goes regularly into 50 per cent more Zanesville homes than any other paper.

It goes into twice as many Southeastern Ohio homes as all other papers combined.

It guarantees more than 10,000 circulation every issue of 1905, and gives the advertiser better returns on his investment than any other Ohio newspaper.

It gained more than 40 per cent in both circulation and advertising in 1904.

It is the only Ohio daily whose circulation is so large and advertising rates so low that its circulation income exceeds its advertising revenue.

The fact that it gets 50 per cent more "Want" ads than both its contemporaries combined proves its strength with the great middle classes, and that it is the most effective advertising medium.

A sworn statement of each day's circulation is printed in our news column every week, so that all advertisers may know just what amount of publicity they are getting for their money.
The DAILY COURIER thoroughly covers all the smaller towns within 20 miles of Connellsville.

Publisher's announcement. — The EVENING ITEM has a sworn daily circulation of 216,106 and the SUNDAY ITEM a sworn average circulation of 222,892. THE ITEM is now the *only* daily paper in Philadelphia that swears to its circulation, and proves it by detailed statements of the sales by dealers, stores, etc.; also sworn to by the Circulation Manager and verified by the Paper Company. A $5,000 challenge by THE ITEM to all the Philadelphia newspapers, offering to prove that THE ITEM had *more circulation than any one*, daily and Sunday, has been standing since October, 1902, *without acceptance.* The above facts prove, indisputably, that THE ITEM has more paid circulation than any Philadelphia newspaper.

Publisher's announcement.—The Philadelphia PRESS desires to emphasize the fact to all advertisers that owing to its clean make-up and distinctive features of high character it is becoming more and more recognized as the great home and family newspaper of Philadelphia and Pennsylvania. Since changing its price to one cent it has had a remarkable growth in circulation, and the high standard has not been changed, except in the direction of improvement. The PRESS is the only morning newspaper in Philadelphia to make an exact detailed statement of its circulation, and with an average of over 113,000 each day for the year, and with the Gold Marks bestowed upon it by the American Newspaper Directory, it has both quality and quantity.

The German Daily

The question that often confronts the advertiser is "Does advertising in the German newspapers pay?" Some advertisers unhesitatingly say that German papers bring greater returns for the expenditure than English dailies in the same city.

Reader for reader, the pulling power of good German papers is no doubt higher in most all lines of business than even the large metropolitan dailies.

In Philadelphia, which is known as the City of Homes, it is estimated that over 60,000 Germans own their homes. The German is a home-maker and a home-buyer, very thrifty and a keen business man. His local daily paper will interest him in purchasing from those advertising in his native tongue. The fact that you advertise in his German paper convinces him that you want German trade.

The question of German copy is not complicated, for the leading German dailies have especially well-drilled translaters for advertising copy, so that the same matter that tells the whole story to English readers is convincingly told in German.

Statistics show that over 200,000 Germans are arriving in this country yearly, and have averaged over 100,000 a year for the past twenty years. According to the latest census, Philadelphia has over 350,000 persons of German parentage, or 36.9 per cent. of the entire population. The census credits this country with about 8,200,000 persons born of German parentage.

There are 772 German publications in the United States, of general circulation, fourteen of which are published in Philadelphia, as follows: four dailies, four Sundays, two weeklies and two monthlies. The American Newspaper Directory credits three of these with circulations over 10,000 copies. The GERMAN DAILY GAZETTE leads with a SWORN DETAILED circulation of 48,942 net paid copies, with a guarantee that it is fifty per cent. greater than that of all other Philadelphia German daily papers combined.

Every judicious advertiser, either local or general, will not be at a loss by choosing such a paper as THE GAZETTE.

Publisher's announcement.—There are 1,089 post offices in South Carolina. The STATE, with its daily, Sunday and semi-weekly editions, goes to 668 of them, and, in addition, to many patrons of rural delivery routes.

The largest daily and Sunday circulation in South Carolina, and the only morning paper that makes a sworn statement of its circulation.

The South is growing rapidly in wealth and industries and offers a rich field for advertisers of articles of merit.

The STATE alone covers almost all of South Carolina—the greatest cotton manufacturing State in the Union, except one.

The STATE PROVES a larger circulation than any other South Carolina daily claims.

Publisher's announcement.—The Nashville BANNER is the only afternoon paper in Nashville, and the only daily newspaper which is rated in figures in this Directory. The morning paper will not, or does not, furnish information upon which an exact and definite circulation rating may be based by the editor of this Directory.

The BANNER'S circulation for the year 1904 averaged 20,703 daily; yet these figures do not represent the paper's present circulation.

On Feb. 7, 1905, the daily afternoon *News*, of Nashville, suspended publication, and the BANNER'S circulation to-day is over 27,000 daily, and for the year 1905 the daily average will largely exceed these figures. The BANNER'S circulation is largely in excess of that even claimed by the morning paper.

The BANNER'S subscription price is the highest, and it publishes more local and more foreign advertising than its morning contemporary.

For rates address Banner Publishing Co., Nashville, Tenn., or any recognized advertising agency.
